Summary:

I'm a web developer learning HTML, CSS, and JavaScript, with a focus on building responsive and easy-to-use websites. I aim to write clean, efficient code and enjoy working in team settings where I can share ideas and learn from others. I'm committed to improving my skills and growing in the field of web development.

Skills:

- **Languages**: HTML, CSS, JavaScript,
- **Web Development**: React.js, Front-end design, website structure, UI implementation, Bootstrap framework
- **Responsive Design**: Mobile-first approach, usability, adaptive layout
- **Version Control**: Git, GitHub – repository management, version tracking, collaboration
- **Soft Skills**: Problem-solving, teamwork, continuous learning

---

Projects:

ShopKart – E-commerce Clothing Website
Final Year Project | Full-Stack Web Development

- Built a fully functional clothing e-commerce platform with product management and secure payments
- Enabled product image uploads and dynamic inventory updates
- Designed a responsive, mobile-friendly UI/UX for smooth cross-device experience
- Developed backend to manage users, products, and orders efficiently

Portfolio

- A simple front-end portfolio website developed using HTML, CSS, and JavaScript. It serves as a hub to showcase my project work and code structure, with a clean layout and easy navigation. Designed primarily for desktop view.
